

# California State Standards for Kindergarten Indian Land Tenure Curriculum Water Theme

Standards that students could potentially address:

## California Content Standards for English-Language Arts

### READING:

#### **1.0 Word Analysis, Fluency, and Systematic Vocabulary Development**

Students know about letters, words, and sounds. They apply this knowledge to read simple sentences.

##### *Concepts About Print*

Understand that printed materials provide information.

#### **2.0 Reading Comprehension**

Students identify the basic facts and ideas in what they have read, heard, or viewed. They use comprehension strategies (e.g., generating and responding to questions, comparing new information to what is already known).

##### *Comprehension and Analysis of Grade-Level-Appropriate Text*

- 2.2 Use pictures and context to make predictions about story content.
- 2.3 Connect to life experiences the information and events in texts.
- 2.4 Retell familiar stories.
- 2.5 Ask and answer questions about essential elements of a text.

#### **3.0 Literary Response and Analysis**

Students listen and respond to stories based on well-known characters, themes, plots, and settings.

##### *Narrative Analysis of Grade-Level-Appropriate Text*

- 3.3 Identify characters, settings, and important events.

### WRITTEN AND ORAL LANGUAGE CONVENTIONS

#### **1.0 Listening and Speaking Strategies**

Students listen and respond to oral communication. They speak in clear and coherent sentences.

##### *Comprehension*

- 1.1 Understand and follow one and two-step oral directions.
- 1.2 Share information and ideas, speaking audibly in complete, coherent sentences.

#### **2.0 Speaking Applications (Genres and Their Characteristics)**

Students deliver brief recitations and oral presentations about familiar experiences or

interests, demonstrating command of the organization and delivery strategies outlined in Listening and Speaking Standard 1.0.

Using the listening and speaking strategies of kindergarten outlined in Listening and Speaking Standard 1.0, students:

- 2.1 Describe people, places, things (e.g., size, color, shape), locations, and actions.
- 2.3 Relate an experience or creative story in a logical sequence.

## Content Standards for History-Social Studies

### Learning and Working Now and Long Ago

**K.1 Students understand that being a good citizen involves acting in certain ways.**

- 2. Learn examples of honesty, courage, determination, individual responsibility, and patriotism in American and world history from stories and folklore.
- 3. Know beliefs and related behaviors of characters in stories from times past and understand the consequences of the characters' actions.

## Content Standards for Science

### Physical Sciences

- 1. Properties of materials can be observed, measured, and predicted. As a basis for understanding this concept:
  - a. *Students know* objects can be described in terms of the materials they are made of (e.g., clay, cloth, paper) and their physical properties (e.g., color, size, shape, weight, texture, flexibility, attraction to magnets, floating, sinking).
  - b. *Students know* water can be a liquid or a solid and can be made to change back and forth from one form to the other.
  - c. *Students know* water left in an open container evaporates (goes into the air) but water in a closed container does not.

### Investigation and Experimentation

- 4. Scientific progress is made by asking meaningful questions and conducting careful investigations. As a basis for understanding this concept and addressing the content in the other three strands, students should develop their own questions and perform investigations. Students will:
  - a. Observe common objects by using the five senses.
  - b. Describe the properties of common objects.
  - e. Communicate observations orally and through drawings.

# Content Standards for Visual and Performing Art

## Visual Arts

### 1.0 ARTISTIC PERCEPTION

#### **Processing, Analyzing, and Responding to Sensory Information Through the Language and Skills Unique to the Visual Arts**

Students perceive and respond to works of art, objects in nature, events, and the environment. They also use the vocabulary of the visual arts to express their observations.

##### *Develop Perceptual Skills and Visual Arts Vocabulary*

- 1.1 Recognize and describe simple patterns found in the environment and works of art.
- 1.2 Name art materials (e.g., clay, paint, crayons) introduced in lessons.

##### *Analyze Art Elements and Principles of Design*

- 1.3 Identify the elements of art (line, color, shape/form, texture, value, space) in the environment and in works of art, emphasizing line, color, and shape/form.

### 2.0 CREATIVE EXPRESSION **Creating, Performing, and Participating in the Visual Arts**

Students apply artistic processes and skills, using a variety of media to communicate meaning and intent in original works of art.

##### *Skills, Processes, Materials, and Tools*

- 2.1 Use lines, shapes/forms, and colors to make patterns.
- 2.2 Demonstrate beginning skill in the use of tools and processes, such as the use of scissors, glue, and paper in creating a three-dimensional construction.
- 2.3 Make a collage with cut or torn paper shapes/forms.

##### *Communication and Expression Through Original Works of Art*

- 2.5 Use lines in drawings and paintings to express feelings.

### 4.0 AESTHETIC VALUING **Responding to, Analyzing, and Making Judgments About Works in the Visual Arts**

Students analyze, assess, and derive meaning from works of art, including their own, according to the elements of art, the principles of design, and aesthetic qualities.

##### *Derive Meaning*

- 4.1 Discuss their own works of art, using appropriate art vocabulary (e.g., color, shape/form, texture).
- 4.2 Describe what is seen (including both literal and expressive content) in selected works of art.

##### *Make Informed Judgments*

- 4.3 Discuss how and why they made a specific work of art.
- 4.4 Give reasons why they like a particular work of art they made, using appropriate art vocabulary.
